Make staying home simple!

The Stay at Home Essentials program is designed to help you support your team as the home continues to be the multi-use facility for work and school. Our Stay at Home Essentials program offers easy to serve meals for those days that just don't have enough time for meal prep.

How it works:

1. Select the menu and budget you would like to make available.
2. Send the menu and selection instructions to the recipients.
3. We will prepare and deliver the order to each recipient.
